DETAILED ACTION

Allowable Subject Matter

Claims 5, 10, 20-22, 26 and 27 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

In regard to claim 5, the prior art does not teach or fairly suggest the recited limitation of "adjusting by the user the time in the middle of the broadcast so that the output is dynamically adjusted to the replay plan with new time parameters, by at least one of: 1) specifying more time is available, or 2) specifying that less time is available." Lawler discloses a system and method for recording programs at the head end to be retrieved by the user "on demand". Sezan discloses an audiovisual informational system that creates a highlight summary of a program, which is of specific interest to the user. Both Sezan and Lawler taken alone or in combination fail to disclose the aforementioned limitation.
